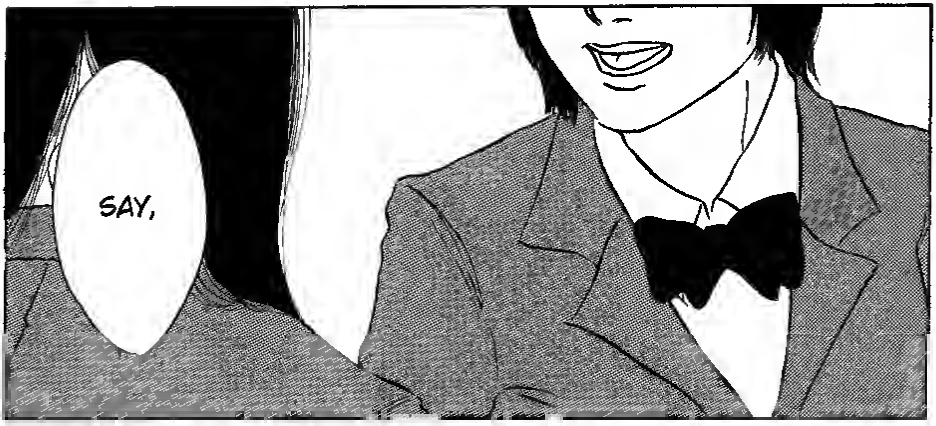
In order to allow the flower to bloom beautifully, I will have to look after it carefully.
The flower is a species of black lily from the genus Lilium.
It's a special type of flower that only I can see.
No matter what I have to do, I will make this dream come true.
Since I was a child, my dream has always been to help the world's most beautiful flower blossom.
I will definitely help you bloom!
From today onwards I have decided to write an observation diary to keep track of your growth.



SAY,

HAHAHA, THAT'S SO PITIFUL
SOMEONE SO INTO PLANTS IS BOUND TO BE WEIRD, RIGHT?

YEAH
WASN'T HANAO REALLY CREEPY THIS MORNING

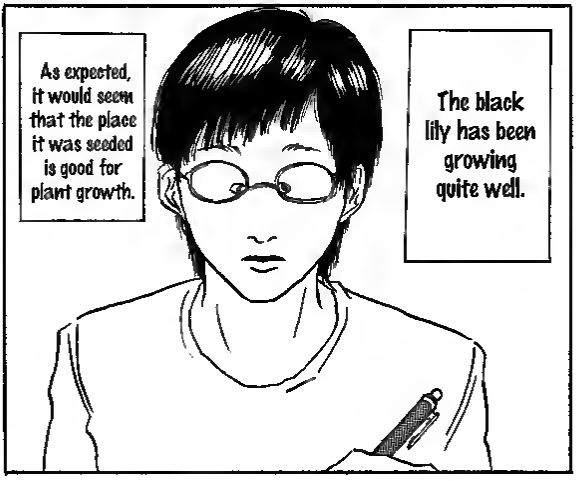
At this rate it won't be long before a beautiful flower starts to bloom.



As expected, it would seem that the place it was seeded is good for plant growth.
The black lily has been growing quite well.

The proof of this can be seen from how much the flower has been growing recently.
